

# Full Map Admin Pages

Instructor comment: hand drawn sketches missing but good job with wireframes

## Admin Home Page

This wireframe is shown after an administrator login is validated by the system. It is the collective home page for admins. It includes Use Cases for View Approved Hours and Account Creation.

## View Reports Page

This is the wireframe that is shown after an administrator selects View Reports. It shows **all** reports that have been approved by faculty for the system. From here the admin can view information for any reports. They may filter to find specific reports and they may also access a students account directly by selecting the provided Link to the Account. Admins may also export reports as needed from here. This is part of the View Approved Hours Use Case.

| Date Submitted | Report ID | Student Name | Sponsor  | Link To Account | Complete? | Filter  |
|----------------|-----------|--------------|----------|-----------------|-----------|---|
| 01/22/22       | #1731     | John Doe     | Dr. Jane | Link            | X         | <div>▼ By Date Submitted</div> <div>▼ By Name</div> <div>▼ Incomplete Reports</div> <div>▼ Etc.</div> |
|                |           |              |          |                 |           | <div>Export</div> <div>Delete</div>   |

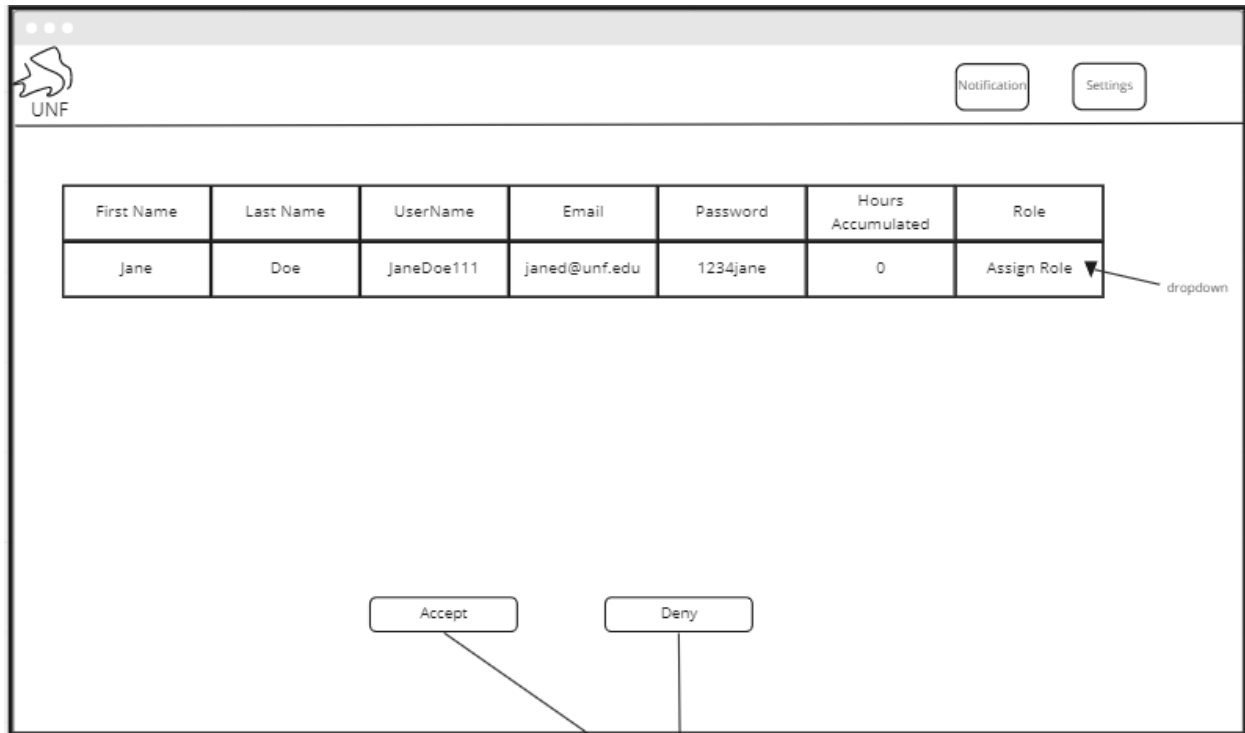

## Pending Account Requests Page

This is the account requests page. This page shows all pending accounts waiting for approval by an admin. They may select click to view to review an account request. This is part of the Account Creation Use Case.

## Account Confirmation Page

This page is the account confirmation page. It shows the details of the account that is to be approved. First, an admin must assign a role to the account before approving the account request. Then the Admin may select accept or deny completing the account request process. This is a part of the Account Creation use case.

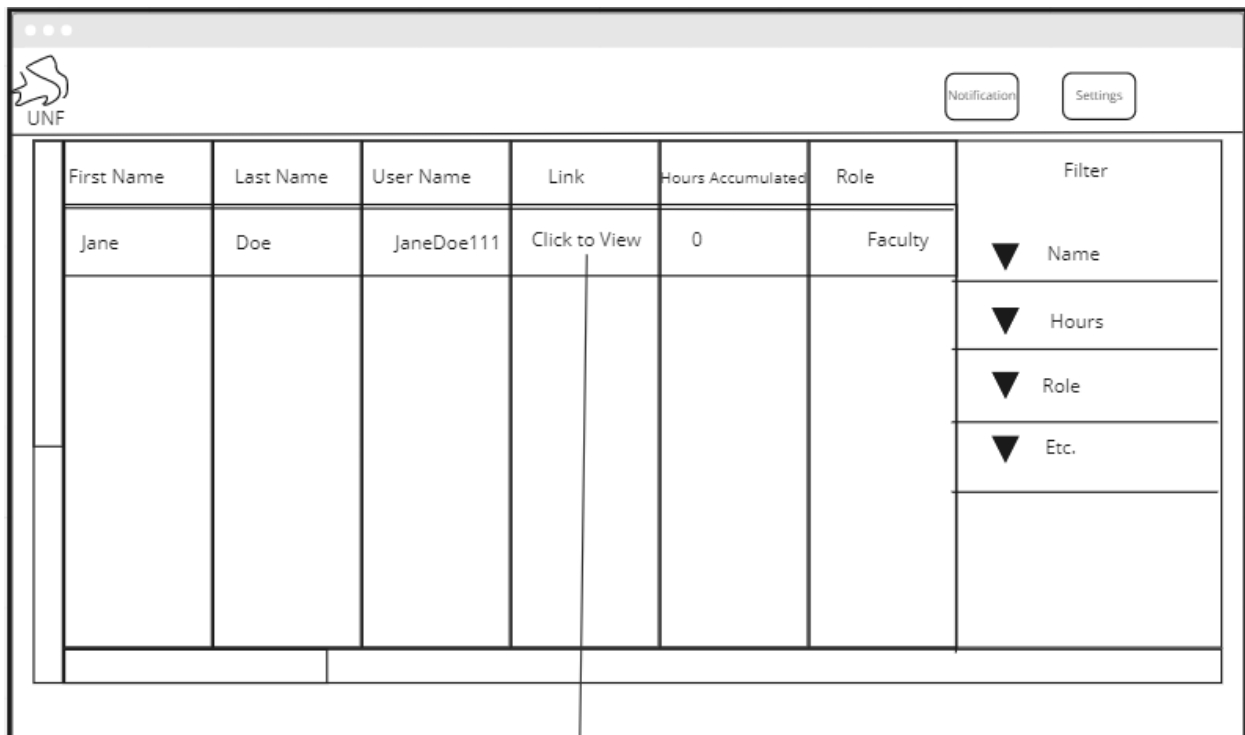

The image shows a UI mockup of an account confirmation page. At the top left is a logo with the letters 'UNF'. At the top right are two buttons: 'Notification' and 'Settings'. Below these is a table with the following data:

| First Name | Last Name | UserName   | Email         | Password | Hours Accumulated | Role          |
|------------|-----------|------------|---------------|----------|-------------------|---------------|
| Jane       | Doe       | JaneDoe111 | janed@unf.edu | 1234jane | 0                 | Assign Role ▼ |

An arrow points from the text 'dropdown' to the 'Assign Role' cell in the table. Below the table are two buttons: 'Accept' and 'Deny'. An arrow points from the 'Accept' button to the bottom of the page.

## Manage Accounts Page

This is the manage accounts page. It shows **all** accounts that have been registered within the system. From here an admin can view the details related to an account and may filter to find specific accounts. This is a part of the Account Creation use case.

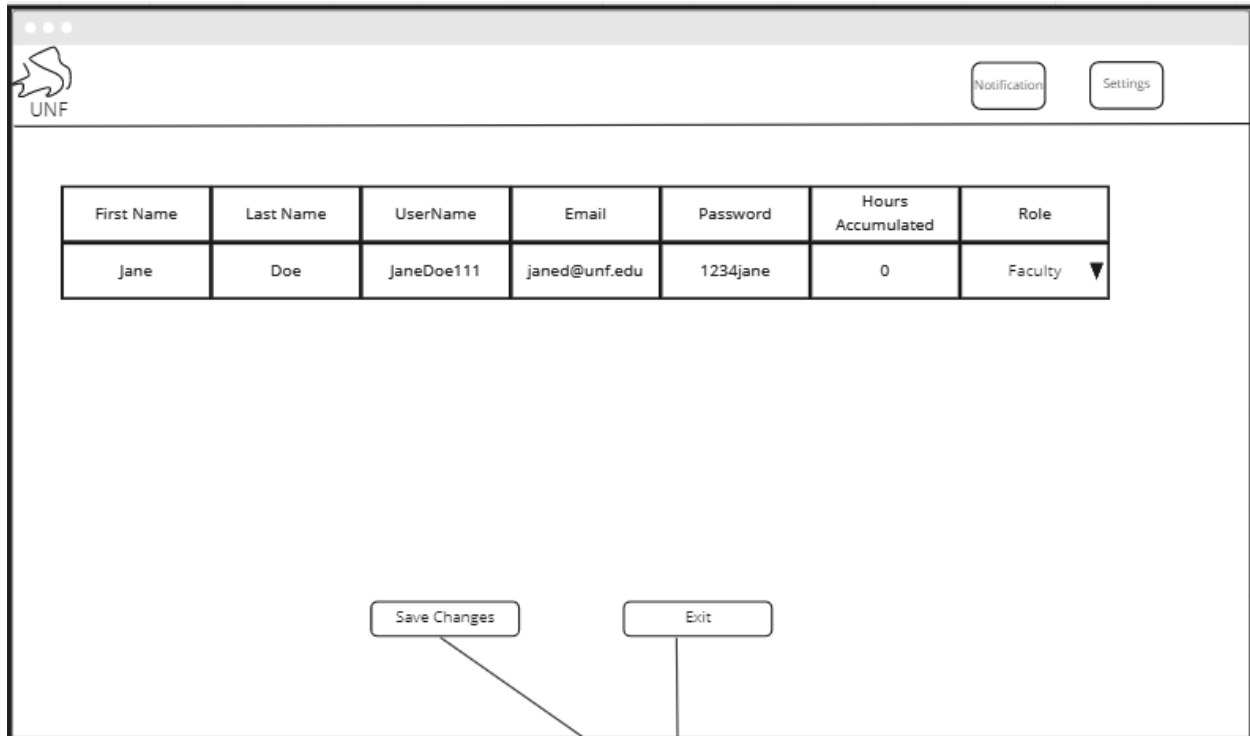

The image shows a web application interface for managing accounts. At the top left is a logo with the letters 'UNF'. To the right are two buttons: 'Notification' and 'Settings'. Below these is a table with columns: 'First Name', 'Last Name', 'User Name', 'Link', 'Hours Accumulated', and 'Role'. The first row of data shows 'Jane', 'Doe', 'JaneDoe111', 'Click to View', '0', and 'Faculty'. To the right of the table is a 'Filter' section with four dropdown menus labeled 'Name', 'Hours', 'Role', and 'Etc.'. The table has a footer row that is currently empty.

| First Name | Last Name | User Name  | Link          | Hours Accumulated | Role    | Filter  |
|------------|-----------|------------|---------------|-------------------|---------|---------|
| Jane       | Doe       | JaneDoe111 | Click to View | 0                 | Faculty | ▼ Name  |
|            |           |            |               |                   |         | ▼ Hours |
|            |           |            |               |                   |         | ▼ Role  |
|            |           |            |               |                   |         | ▼ Etc.  |
|            |           |            |               |                   |         |         |
|            |           |            |               |                   |         |         |

## Account Editor Page

This is the page that is shown when an admin clicks an account to edit. From here the admin may edit information related to an account. This is a part of the Account Creation use case.

The image shows a wireframe of an 'Account Editor Page'. At the top left is a logo with a stylized 'S' and the text 'UNF'. At the top right are two buttons: 'Notification' and 'Settings'. Below these is a table with the following data:

| First Name | Last Name | UserName   | Email         | Password | Hours Accumulated | Role      |
|------------|-----------|------------|---------------|----------|-------------------|-----------|
| Jane       | Doe       | JaneDoe111 | janed@unf.edu | 1234jane | 0                 | Faculty ▼ |

At the bottom of the page are two buttons: 'Save Changes' and 'Exit'. A line connects the 'Save Changes' button to the bottom of the table.
