Graduate student at the University of North Florida now seeking a master's degree. I am excited to delve into real world business and it is my goal to help develop and refine a product that will help the people of Northeast Florida.

EXPERIENCE

AUGUST 2021 – DECEMBER 2021

SOCKET SERVER PROJECT

- Created a fully working and optimized socket server and client handler in Java. Tested its capabilities and performed full stress tests.

AUGUST 2021 – DECEMBER 2021

WEB SYSTEM DEVELOPMENT PROJECT

- Redesigned website for Ross Department Stores using HTML and CSS as well as created and designed a fully functioning SQL database that handles customer profile information, orders, inventory etc.

JANUARY 2022 – MAY 2022

CLOUD COMPUTING PROJECT

- Benchmarked AWS and GCP cloud platforms. Cluster was analyzed specifically on three metrics, memory bandwidth, IO performance and CPU performance.

AUGUST 2022 – APRIL 2023

INFORMATION SYSTEMS SENIOR PROJECT

- Worked for Doctor Sherif Elfayoumy to develop a web application for the University of North Florida's College of Computing. Development has seen progress using MySQL, Express, Node.js, React. App was deployed on Microsoft Azure but moved to UNF servers afterwards. As the technical writer/business analyst I was responsible for creating the software development plan and other written documents including documenting progress on JIRA/GitHub/Excel. Fully determined use cases, user stories, and requirements for the project and delivered a fully functioning product. Also responsible for writing, testing, and deploying code through VS Code and ensuring all processes are working as intended as assistant project manager. Project overseen by Karthikeyan Umapathy.

EDUCATION

MAY 2019

ASSOCIATE OF ARTS, FLORIDA STATE COLLEGE AT JACKSONVILLE

Graduated from High School and finished two-year degree concurrently.

AUG 2023

BACHELOR'S OF SCIENCE: COMPUTING AND INFORMATION SCIENCES, UNIVERSITY OF NORTH FLORIDA

Graduated from UNF with a current GPA of 3.7. Plans to pursue a master's degree with a focus on data sciences.

SKILLS

- Fast-Learner
- Hard-Worker
- Great people skills
- Consistent
- Independent
- Leader

ACTIVITIES

It has always been my passion to make the lives of others better. Originally, I was a health science major until I decided I enjoyed Web Development and Data Science to be far more within my interests. I hope to find an opportunity that will help improve the quality of life for many and I would love to make many friends along the way.

In Highschool, I graduated within the top 1% of my class and started college at 16 years old. I was also continuously involved with the Jacksonville Humane Society. I have also developed strong leadership skills as captain of my school's lacrosse team.

I have lots of experience in languages and environments including but not limited to: CSS, HTML, SQL, PHP, C#, Java, C, Python, Node.js, React, and Express.
